

Features Summary

CONFIGURATION: Solid Loose Lay Vinyl

INSTALLATION: Perimeter, Full-spread, or No Glue

INNOVATIVE DESIGN

- UV-urethane with ceramic bead finish
- UV-cured finish for color fastness
- High scratch and stain resistance
- 4-sided micro-bevel
- Integrated fiberglass reinforcement layer for greater dimensional stability
- Installs easily over most existing hard surface floors

SUPERIOR PERFORMANCE

- Unique anti-skid backing grips the subfloor, ensuring strong plank adherence, stability, and prevents movements in all directions
- Naturally quiet, comfortable floor. Mitigates impact and sound transmission without additional underlayment
- 100% waterproof
- Anti-fatigue characteristics

COST EFFECTIVE

- Up to three times faster to install than other vinyl flooring products
- Minimal to no adhesive required
- Simple plank replacement & repair
- Can be easily removed and reused elsewhere without damage to the subfloor, making renovations less expensive and quicker.
- Easy care and maintenance

SUSTAINABLE

- 100% virgin vinyl
- Recyclable

CUSTOM CONFIGURATION OPTIONS

- Available in a variety of shapes and styles
- Striking, authentic visuals
