

Features Summary

CONFIGURATION: High-density (Rigid) Core

INSTALLATION: Drop and Lock (Floating)

INNOVATIVE DESIGN

- XD core more than twice as dense than competing WPC products
- High density rigid core technology enables installation over existing hard surfaces or uneven floors without telegraphing, ripples, or waves
- Designed with the Välinge 5G locking system to enable a quick, easy, hassle-free installation
- UV-urethane with ceramic bead finish creates a high scratch and stain resistance surface
- UV-cured finish for color fastness
- 4-sided micro-bevel
- Underlayment is resistant to mold, mildew and is odorless

COST EFFECTIVE

- Waterproof, lifeproof, and easy to install
- Easy care and maintenance

SUPERIOR PERFORMANCE

- Constructed on a single, homogenous layer creating unparalleled strength, dimensional stability, and resistance to indentation
- Naturally quiet, comfortable floor. Attached underlayment delivers a powerful sound mitigation rating of 70 IIC
- No transitions required in large rooms or doorways

SUSTAINABLE

- 100% phthalate-free
- 100% virgin vinyl
- Recyclable

CUSTOM CONFIGURATION OPTIONS

- Available in a variety of shapes and styles
- Styles and patterns offer striking and authentic visuals
